Software engineer with experience translating business and user needs into scalable, maintainable technical solutions. Strong interdisciplinary foundation in psychology, art, and technology, with a deep interest in building intuitive user experiences, reliable systems, and internal tools that streamline team workflows.

Technical Skills

- **Languages:** TypeScript, Java, Python, JavaScript
 - **Frameworks & Libraries:** Angular, React, Spring Boot
 - **Databases:** MySQL
 - **Tools:** Bitbucket, Jira, REST APIs
-

Experience

Full Stack Software Engineer

JPMorgan Chase - CCB Digital Automation | New York, NY
October 2021 – October 2025

- Designed and developed an Angular-based registration experience for an internal product, proposing a stepper-based flow modeled after common registration patterns with real-time validation to reduce user input errors and improve the onboarding flow for internal customers.
 - Built RESTful APIs using Java and Spring Boot to support application functionality and improve system reliability.
 - Developed a Team Contacts API that replaced static YAML configurations with a dynamic service used for certification reporting.
 - Developed a Python automation tool that generated release notes by parsing Bitbucket commits and Jira tickets, reducing manual documentation work and improving sprint reporting accuracy.
-

Independent Product Projects

- **Pomodoro Focus Timer App | iOS/macOS**
Designed and built a Pomodoro-based focus timer for iOS and macOS, defining the timer experience and interface behavior to support focused work sessions, progress tracking, and break management.
 - **Personal Productivity & Planning App | iOS | In Progress**
Designing and developing an integrated productivity app combining to-do lists, scheduling, and habit tracking into one productivity suite
-

Education & Certifications

- Columbia University: Certificate: Engineering Coding Bootcamp
 - Boston University: B.A., Psychology; Art History | Dean's List: 4 years
 - AWS Cloud Practitioner
-

Volunteer

JPMC Force For Good

- Collaborated with the Natural Areas Conservancy nonprofit organization to enhance the organization's data visualization using Tableau
